Statewide Electronic Tracking System Report

December 1, 2022

Texas Government Code 420.034 (h) requires the Department to publish the "Statewide Electronic Tracking System Report" by December 1st of each year. The report will use Track-Kit data to identify the number of kits that have not yet been submitted for laboratory analysis or for which laboratory analysis has not yet been completed. **Track-Kit only tracks evidence kits collected on or after September 1, 2019.**

The information below represents data available in Track-Kit.

September 1, 2019 - November 23, 2022	
Total Number of Kits	32,463
Unsubmitted Kits Within Statutory Time Frame	288
Unsubmitted Kits Past Due to Lab	313
Total Number of Unsubmitted Kits	601
Unanalyzed Kits Within Statutory Time Frame	1,797
Unanalyzed Kits Over 90 Days	1,451
Total Number of Unanalyzed Kits	3,248

Of the 1,451 kits which have been submitted and are beyond 90 days, 0 are in DPS inventory.

Definitions/Statutory Time Frames

- *Unsubmitted Kits* - Kit that has not yet been submitted for laboratory analysis.
- *Unsubmitted Kits Past Due to Lab* - Kit that a law enforcement agency failed to receive or has received and has had over 30 days but has not yet submitted for laboratory analysis.
- *Unanalyzed Kits* - Kit that has been received by a laboratory but the laboratory has not completed analysis.
- *Unanalyzed Kits Over 90 Days* - Kit that a laboratory received and has had over 90 days but has not completed analysis.

*Please Note: Lab analysis is not considered complete until the data has been reviewed and, if applicable, a profile is uploaded to CODIS.
